

Kortene deles ud til eleverne. Kortene er i en kæde, således at du kan anvende den mængde, der passer til antallet af børn. Streg spørgsmål ud på sidste kort. Hvert barn spørger fra nederste felt, og den, der matcher i det blå felt, læser sit match op fra det øverste felt og stiller et nyt spørgsmål fra det nederste felt.

Find someone,
who... numbers 1
MED SPROGTIP

I have the number 1
Who has the number 5?

I have the number 5
Who has the number 3?

I have the number 3
Who has the number 4?

I have the number 4
Who has the number 10?

I have the number 10
Who has the number 15?

I have the number 15
Who has the number 2?

I have the number 2
Who has the number 12?

I have the number 12
Who has the number 20?

I have the number 20
Who has the number 18?

I have the number 18
Who has the number 6?

I have the number 6
Who has the number 14?

I have the number 14
Who has the number 9?

I have the number 9
Who has the number 17?

I have the number 17
Who has the number 2?

I have the number 2
Who has the number 7?

I have the number 7
Who has the number 24?

I have the number 24
Who has the number 11?

I have the number 11
Who has the number 13?

I have the number 13
Who has the number 23?

I have the number 23
Who has the number 16?

I have the number 16
Who has the number 19?

I have the number 19
Who has the number 21?

I have the number 21
Who has the number 8?

I have the number 22
Who has the number 1?
